61st Legislature

2009 Regular Session

AN ACT Relating to economic stimulus transportation funding and appropriations; amending RCW 46.68.065, 46.68.220, and 47.60.645; amending 2008 c 121 ss 103, 201, 202, 203, 205, 206, 208, 209, 210, 211, 212, 213, 214, 215, 216, 218, 219, 221, 222, 223, 224, 225, 302, 303, 305, 306, 307, 308, 309, 310, 311, 401, 402, 403, 404, 405, 406, 407, and 605 (uncodified); adding a new section to chapter 46.68 RCW; adding new sections to 2007 c 518 (uncodified); creating new sections; repealing 2008 c 121 s 604 and 2007 c 518 s 713 (uncodified); repealing 2007 c 518 s 108 (uncodified); making appropriations and authorizing capital improvements; and declaring an emergency.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

ECONOMIC STIMULUS FUNDING

NEW SECTION. Sec. 1 (1) The legislature finds that President Barack Obama and the 111th Congress have enacted the American Recovery and Reinvestment Act of 2009 in an effort to stimulate the American economy, create and save jobs, and speed recovery from one of the deepest economic recessions in recent history. The investment of federal funds will help alleviate some of the economic burdens the states face, and create jobs for the unemployed. The act includes \$492 million in federal transportation funding for Washington state and local highway projects and \$179 million for local transit agency improvement projects. In addition, the act includes over \$11 billion in new funding for competitive national grant programs for highways of regional significance, ferries, and rail priorities. The legislature also finds that Washington state is well positioned to deliver infrastructure projects in one hundred twenty days, as is required for at least half of the state's share of federal stimulus highway funds, and expects to receive additional funds that other states are unable to use in this time frame. The legislature further finds that the state's work to date on projects funded through the "nickel" and "transportation partnership" funding acts mean that many regionally significant projects are poised to compete well for nationally available funds.

(2) Therefore, it is the intent of the legislature to revitalize Washington's economy and reduce the state's unemployment rate by quickly putting people to work around the state on projects that promote safety, relieve traffic congestion, and preserve long-term investments that will provide

benefits into the future. Such projects will be constructed quickly and will generate a significant number of jobs, thereby strengthening Washington's economy and its families seeking work.

**NEW SECTION. Sec. 2 FOR THE DEPARTMENT OF TRANSPORTATION--
AMERICAN RECOVERY AND REINVESTMENT ACT OF 2009.**

Motor Vehicle Account--Federal Appropriation \$341,400,000

The appropriation in this section is subject to the following conditions and limitations:

(1) The entire appropriation in this section is provided solely for the projects and amounts listed in ARRA Washington State Project LEAP document 2009, as developed on February 24, 2009. Funds under this section may be reallocated among projects shown in the document to the extent that the department finds it necessary for the purposes of facilitating completion of the projects with the highest priority or to maintain maximum federal funds eligibility.

(2) To achieve the legislative objectives provided in section 1(2) of this act with respect to highway projects, it is the intent of the legislature that the appropriation in this section be used for: Transportation 2003 account (nickel account) projects and transportation partnership account (TPA) projects that would have otherwise been delayed due to decreased revenues, so as to advance project completion dates similar to those envisioned in the enacted 2008 legislative list of projects; projects that preserve or rehabilitate Washington state highways and roads; and projects that modify roadway alignments and conditions to create safer roads for the traveling public.

(3)(a) The department of transportation shall obligate at least fifty percent of the funds no later than one hundred twenty days after surface transportation program funds under the American Recovery and Reinvestment Act of 2009 have been apportioned to the states;

(b) The department shall obligate all funds no later than one year after surface transportation program funds under the American Recovery and Reinvestment Act of 2009 have been apportioned to the states;

(c) The department shall place the first priority for allocating funds on those projects listed as "First Tier" projects on ARRA Washington State Project LEAP document 2009, as developed on February 24, 2009. The department shall place the second priority on projects listed as "Second Tier" projects on the document; and

(d) Within each tier of projects on ARRA Washington State Project LEAP document 2009, as developed on February 24, 2009, the department shall place the highest priority for allocating funds on the transportation 2003 account (nickel account) projects and transportation partnership account (TPA) projects listed to advance their completion. The department shall prioritize funding for other projects within the tier according to how soon the contract for the project could be awarded.

(4) By June 30, 2009, the department of transportation shall report to the legislative standing committees on transportation and the office of financial management on the status of federal stimulus funds including, but not limited to, identifying the projects shown in ARRA Washington State Project LEAP document 2009, as developed on February 24, 2009, for which federal stimulus funding has already been obligated, the amount of federal recovery funds estimated to be obligated to the projects, and the completion status of each project. Subsequent status reports are due to the legislative standing committees on transportation and the office of financial management on August 31, 2009, and December 1, 2009.

NEW SECTION. Sec. 3 If the department of transportation receives additional funding pursuant to the American Recovery and Reinvestment Act of 2009, including funding redistributed from other states, the department shall apply such funds to projects on ARRA Washington State Project LEAP document 2009, as developed on February 24, 2009, as prioritized by section 2(3) (c) and (d) of this act. If the funds are in excess of the amounts shown on ARRA Washington State Project LEAP document 2009, as developed on February 24, 2009, additional funds must be applied to improvement, preservation, ferries, and rail capital projects identified in the LEAP transportation documents in the enacted 2009-11 omnibus transportation appropriations act. However, if the funds received may not be used for any of the purposes enumerated in this section, then the department may program the funds for other transportation-related activities. The department shall notify the legislative standing committees on transportation and the office of financial management of the amount of funds received and the projects receiving funding through this process.

NEW SECTION. Sec. 4 To the extent practicable, the department of transportation shall apply to the competitive grant programs created by the American Recovery and Reinvestment Act of 2009 for all transportation modes including, but not limited to, rail, projects of regional significance, and ferries, as well as other grant programs created by the act that may provide funding for transportation-related activities. Concurrent with the submission of these applications, the department of transportation shall report on these applications to the legislative standing committees on transportation and the office of financial management.

NEW SECTION. Sec. 5 For the distribution of funds that are suballocated within the state pursuant to the American Recovery and Reinvestment Act of 2009 to areas of the state outside of the transportation management areas, the department of transportation shall convene a local oversight and accountability panel, which shall include representation from, at a minimum, the associations of Washington cities and counties, the Washington public ports association, and the transportation improvement board. The panel, chaired by the executive director of the transportation improvement board, shall ensure rapid project delivery and accountability for funds. The panel shall proceed with an expedited statewide process utilizing the metropolitan planning organization and county lead agency prioritized listing of local projects. The department shall monitor the projects selected to receive stimulus funding to ensure that Washington state is successful in obligating all of its funding.

(iv) The owner of the vehicle is not responsible for the violation if the owner of the vehicle, within fourteen days of receiving notification of the violation, mails to the patrol, a declaration under penalty of perjury, stating that the vehicle involved was, at the time, stolen or in the care, custody, or control of some person other than the registered owner, or any other extenuating circumstances;

The intent is for these provisions to be supportable by existing project budgets. The directive shall also include direction on the coordination and selection of visual and aesthetic options with local communities. The draft directive shall be provided to the standing transportation committees of the legislature by January 2008; and

(b) Pilot the draft directive established in (a) of this subsection in two locations along major state roadways. (9) The department shall apply for surface transportation program (STP) enhancement funds to be expended in lieu of or in addition to state funds for eligible costs of projects in Programs I and P, including, but not limited to, the SR 518, SR 519, SR 520, and Alaskan Way Viaduct projects.

(13) Funding provided by this act for the Alaskan Way Viaduct project shall not be spent for preliminary engineering, design, right-of-way acquisition, or construction on the project if completion of the project would more likely than not reduce the capacity of the facility. Capacity shall be measured by including the consideration of the efficient movement of people and goods on the facility.

(14) The governor shall convene a collaborative process involving key leaders to determine the final project design for the Alaskan Way Viaduct.

(a) The process shall be guided by the following common principles: Public safety must be maintained; the final project shall meet both capacity and mobility needs; and taxpayer dollars must be spent responsibly.

The assignment of the stated responsibilities to an intergovernmental entity or rail district shall be on such terms and conditions as the department of transportation and the intergovernmental entity or rail district mutually agree. The grant funds may be used only to refurbish the rail lines. It is the intent of the legislature to make the funds appropriated in this section available as grants to an intergovernmental entity or local rail district for the purposes stated in this section at least until June 30, 2012, and to reappropriate as necessary any portion of the appropriation in this section that is not used by June 30, 2009.
